Sir:

In response to the Office Action mailed April 9, 2002,
please consider the following:

R E M A R K S

Claims 1-12 stand finally rejected under 35 USC 102 as
being anticipated by Suzuki.

Previously, the Applicant has argued that that the
claims recite features not anticipated by Suzuki. In
particular, such features include "selecting a
representative image location from the particular group and
taking the reference defining the color value for the
representative image location in the source image".
However, despite this argument, the above rejection has
been maintained.
